## PEACE CASTLE SCHLAINING

Rochusplatz 1, 7461 Stadtschlaining  
[www.hotel-burg.co.at](http://www.hotel-burg.co.at)

Schlaining Castle with its beginnings in the 13th century belongs, without a doubt, to the most impressive and best-preserved castles in Austria. And it has a special feature that sets it apart from other fortifications: approx. 30 years ago, at the height of the Cold War, a unique centre for peace studies was established here, both for theoretical and practical studies – a meeting-point for East and West in the shadow of the Iron Curtain. Since 1983, the “Schlaining Peace Castle”, is considered an inter-

nationally renowned reference location for non-violent conflict management. Experts are trained up here or provided with further education to go on worldwide peace missions for the UN. Since 2000, Schlaining Castle has also incorporated the European Museum for Peace within its walls – a significant contribution shedding light on the history of war and peace, the causes of war and peace movements as well as the prevention of violent and creation of peace.
